

Enjoy spa-like, chloramine-free water

- Filtered, chloramine-free water at every faucet
- Bath or shower with odour-free water
- Better for your skin and hair
- Protects softeners from premature resin failure
- Protects plastic and rubber parts in water using appliances and toilets

What makes the Crystal ChloramineStop Superior?

Catalytic activated carbon designed specifically for chloramine removal coupled with a distribution media results in better water and longer carbon life.

- Effectively Reduces Chloramines
- Simple, Reliable & Economical
- Wastes No Water

Crystal ChloramineStop

Features

Whole House Chloramine Reduction

High-Capacity Catalytic Carbon

Exclusively designed for better Chloramine removal and longer life than standard carbon

Non-Electric

Reliable. No timers or computers to set, adjust or repair.

No Water Waste

This up-flow design requires no backwashing water

Designed for High Flow Rates

More effective than whole-home filter cartridges or adding carbon to a softener

Fiberglass Reinforced Media Tank

For extra strength with 10-year warranty

Simple, Reliable and Economical Operation

Easy-to-use Bypass Valve

Warranty

5 yrs - In/out and bypass valve

10 yrs - Media tank

Benefits

- Filtered, chloramine-free water at every faucet
- Soft skin without itching
- Bath or shower with odour-free water
- Prevents hair from drying out and premature hair colour fading
- Protects softeners from premature resin failure
- Protects rubber & plastic parts in fixtures and appliances from deteriorating
- Eliminates the need for pitcher style or undersink filter systems and fridge filters
- Great for aquariums too
