

60% Less Salt
 55% Less Water
 100% Better Planet

Crystal **PRO** Water Softener

Protects the environment

Less salt discharge and less water use helps to preserve our precious water resources for future generations.

Saves time and money

With less salt fills, you'll need less trips lugging salt and less time refilling. Not to mention the cost!

| | 60% Less Salt | 55% Less Water |
|--------------------|---------------------------|---------------------|
| Annual Savings* | 16 bags (720lbs) \$152 | 6,800 gals \$145 |
| 5yrs Savings | \$760 | \$725 |
| 5yrs Total Savings | \$1,485 | |

*Savings are based on 30 k metered softener using 10 lbs salt, 100 gals water in a 4 person household with 25 grains hardness, using City of Kitchener water rates.

The Crystal **PRO** Twin Tank Advantage

CONTINUOUS SOFT WATER 24/7

When a tank depletes its soft water capacity, the Crystal **PRO** switches to a fresh tank instantly. Even with a house full of guests or multiple loads of laundry, you won't run out of soft water. A single tank softener must wait until 2am to regenerate and could run out of soft water.

NO SALT AND WATER WASTE

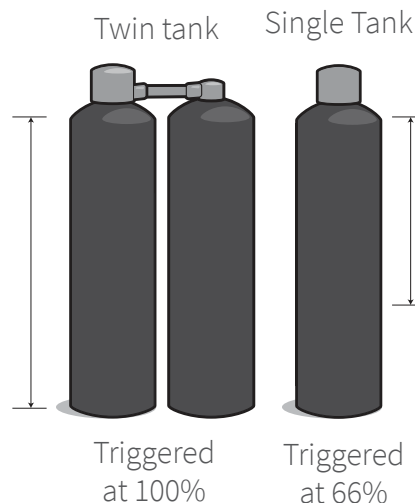

The system uses 100% of its capacity before regenerating, saving both water and salt. Compare to single tank softeners that trigger at 66% capacity, regenerating even if there are hundreds of gallons capacity left.

ECO-FRIENDLY

Fewer regeneration and rinse cycles conserves water and salt, using less than \$3 per year in electricity.

CLEANS ITSELF IN SOFT WATER

Since the Crystal **PRO** regenerates with soft water from the second tank, it provides a cleaner operation of the softening resin and salt tank. This cleaner system operates with improved reliability, minimum service and extended softener life.

A microcomputer 'brain' keeps performance at its peak

The nerve center of each **Crystal PRO** is a dedicated microcomputer, designed to deliver peak salt and water efficiency with a sophistication that traditional systems can't match.

- **MICROPROCESSOR BASED** – outdated metered and timeclock controls are replaced with a precise electronic control system that measures maximum operating efficiency.
- **TIME-TESTED COMPONENTS** – professional-grade components designed to outlast cheap, big box retail softeners that are difficult to repair

The Crystal **PRO** Water Softener

Easy-to-use
Bypass Valve

Time-tested Components

Top quality Fleck 9100 control valve, with a proven reputation for troublefree operation

User Friendly LCD Display

Shows time of day and gallons remaining

Shortened Regeneration Cycle

Cuts down on overall water use

48-Hr Power Outage Protection

Set and forget

Upflow Brining

Cleans itself from the bottom up resulting in up to 10% more efficiency

10% Cross-linked Resin

Super Premium resin – much stronger, chlorine resistant, longer life

Salt Tank Safety Float

Prevents water overflow in salt tank

Warranty

5 years – softener valve

10 years – softening and salt tanks

Fibreglass Softening Tanks
Reinforced for extra strength

Tested and Certified by NSF International against NSF/ANSI Standard 44 for softener performance.

Specifications

| Model | Resin Per Tank (cu. ft.) | Media Tank Size A x B (in.) | Softener Size D x A x C (in.) | Salt Tank Size E x F (in.) | Overall Size G x H (in.) |
|-------------|--------------------------|-----------------------------|-------------------------------|----------------------------|--------------------------|
| CC 9120 TLX | .75 | 8 x 44 | 19 x 8 x 52 | 11 x 35 | 30 x 12 |
| CC 9130 TLX | 1.00 | 9 x 48 | 21 x 9 x 56 | 11 x 35 | 32 x 12 |
| CC 9145 TLX | 1.50 | 10 x 54 | 23 x 10 x 62 | 14 x 34 | 37 x 14 |
| CC 9160 TLX | 2.00 | 12 x 52 | 27 x 12 x 60 | 18 x 40 | 45 x 18 |

Enjoy the benefits of soft water...

Softer, brighter laundry
Clothes and towels look and feel softer while using less detergent

Reduces housework
Soap scum and scale is eliminated. Spot-free glasses and dishware.

Silky soft skin & hair
Smooth skin after baths, showers and shaving. Hair is manageable and radiant.

Equipment lasts longer
Dish washers, water heaters, & washmachines run more efficiently with less repairs.
