Higher flow to the faucet  
3/8" tubing from RO to faucet

4.4 gal storage tank

Auto shut-off valve

Choice of designer faucet

# RENTAL Reverse Osmosis System

- 1** Sediment filter screens out particulate material such as dirt, sand, or rust.
- 2** Activated carbon prefilter removes chlorine which extends the life of the RO membrane.
- 3** TFC 75 GPD reverse osmosis membrane effectively reduces dissolved inorganics & total dissolved solids.
- 4** Carbon block filter removes THM's, volatile and industrial chemicals. The polishing filter absorbs any residual tastes and odors just before the water is delivered through the faucet.
